EXECUTIVE SUMMARY

Information Technology undergraduate with hands-on experience building AI-powered web applications using TypeScript, React, Flask, and LLM integration. Delivered a student onboarding system under tight timelines in a hackathon, earning recognition for usability and impact. Passionate about using AI tools and crafting engaging, user-centric web experiences.

EDUCATION

Usha Mittal Institute of Technology, SNDT University, Mumbai

2024 - 2028

B.Tech, Information Technology

Mumbai

• **GPA:** 8.85

EXPERIENCE

TCS

Present

InnovGenius 2026 Hackathon

- Built an AI-powered student onboarding system integrating Claude for conversational guidance and addressing real-world admission workflow challenges.
- Collaborated on frontend development using TypeScript and Next.js, managing AI architecture under strict hackathon timelines.
- Styled responsive user interfaces with CSS, earning recognition from judges for usability, practical impact, and overall system design.

PROJECTS

Admit-Assist

CampusBridge

- Developed a RAG-based query system using FAISS, SentenceTransformers, and Claude for intelligent document retrieval.
- Built a responsive React and TypeScript student onboarding platform styled with CSS, featuring progress tracking and AI-assisted guidance.
- Implemented JWT authentication and secure REST APIs using Flask.

Moodwave | vibeweave-ai.vercel.app

- Built an AI-powered Next.js playlist generation platform combining Spotify saved tracks with Groq LLM-based mood analysis.
- Integrated Supabase authentication and Spotify OAuth for secure, personalized music recommendations.
- Deployed the server-side rendered application with Next.js on Vercel and Flask APIs.

Fitness Buddy

- Designed an adaptive workout and diet recommendation system tailored to individual user profiles.
- Implemented AI-driven Indian diet suggestions and engagement features to improve user retention.

SafePath

- Developed a safety-focused navigation system using crime-related datasets for route risk scoring.
- Designed a UI optimized for night-time usability and accessibility across diverse user groups.

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, JavaScript, TypeScript, React, React Native, Flask, CSS, Next.js
- **AI / ML:** RAG, FAISS, SentenceTransformers, LLM Integration, Groq API, Claude
- **Databases & Tools:** Supabase, SQLite, PostgreSQL, REST APIs, JWT, Docker, Git

POSITIONS OF RESPONSIBILITY

E-Cell

Managed social media content strategy

- Increasing student engagement across platforms.

ACM

PR & Outreach lead

- Coordinated cross-college collaborations and events.

ACHIEVEMENTS

- **Top 25 / 700 Teams:**InnovGenius 2026 Hackathon (TCS)
- **Python Certification:**University of Michigan
